Internet Filters & Rules

Websites and online traffic from apps is grouped into Web categories. Family Zone updates the categories to ensure that new websites are matched to appropriate age groups and inappropriate content is blocked.

Customize the Default Filters

Parents can edit the default filters.

On a Parent's phone or tablet:

1. In **Settings**, tap **Internet filters & rules**
2. Select your *Child's Age Profile*
Tap **Web categories** (optional)
3. Select **Web categories**, **Search and streaming media**, **Social networks and games** or **Advanced** (more information at the bottom of this article)
4. Go through the topics until you *find the topic you want to change*

5. Tap on one or more **Routine** time (Play, School, Study, Sleep)
Blue allows access this topic during the daily **Routine** time
Red blocks the topic

Your changes are sent through the internet to your Child's Devices within 2 minutes or less.

Restrict Social Media

1. In **Settings**, tap **Internet filters & rules**
2. Note the **Children** in this age group
3. Tap **Kids**
Select another age group, as needed
4. Tap **Web categories**
Select **Social networks and games**
5. Go through each page of social media and games
Tap to change the time to **allow (blue)** or **block (red)**
Tap on the page at the bottom-right to see more

See Customizations or Reset to Default

You may change your mind and want to remove some of the customizations you made.

On a Parent's phone or tablet:

1. In **Settings**, tap **Internet filters & rules**
Select your Child's age group
2. Tap **SHOW MYOVERRIDES**
3. Find the topics with a *blue circle* at the top-right
Tap to change the settings
Blue allows your Child to access this topic
Red blocks this topic

Alternatively, tap the **RESTORE DEFAULTS** button, if you prefer to reset all changes.

Internet Filters & Rules Options

As a Parent, you may want to customize our recommended Internet filters and rules for:

- Web categories (Dating, Education, Government, Hate Speech ...)
- Search engines, SafeSearch, and streaming media (YouTube, Google, Bing ...)
- Websites (specific web addresses)

- Device features (Camera, In-App Purchases, App Installs ...)
 - Social networks and games (Minecraft Online, Skype, Tinder, Twitter ...)
 - Advanced (Malware, Piracy, New Websites ...)
-
