Get the Box Bundled with a Premium Membership

Parents in Australia and New Zealand can set up the Family Zone Box to monitor internet content accessed through gaming consoles, personal assistants, computers, and visiting mobile devices. The Box is attached to your internet provider's modem-router to ensure that your Children are accessing age appropriate web content in your home.

The easiest way to start protecting all your Child's devices inside and outside your home is by using the Family Zone Bundle of the Box and Premium Membership.

From a web browser:

1. Go to www.familyzone.com/anz/families/plans
At the Family Zone Bundle of the Box and a year of Premium, tap **GET STARTED**
2. Enter your name, email, and a password
Tap **SIGN UP**
3. Select how you want to pay
 - a. The express checkout options vary and are determined by the settings on your Android or iOS phone
 - b. Go down the screen to pay with your contact details and a credit card

Select a payment method and follow the steps. Check your email for a welcome to Family Zone.

Before Your Box Arrives

You can start protecting many of your Child's devices immediately. Start by setting up your phone or tablet.

- [Install and Set Up a Parent's Android App](#)
- [Install and Set Up a Parent's iOS App](#)

Install Connect on your Child's Apple iOS or Android phone or tablet, MacOS, Windows or Chromebook. Family Zone will protect the portable devices even when outside the home. See the steps in [Installing Family Zone](#).

After Your Box Arrives

After your Box arrives, use your phone or tablet to

- [Install and Setup the Family Zone Box in the Android App](#) or
- [Install and Setup the Family Zone Box in the iOS App](#)

Your phone or tablet is like a remote control to allow or stop connections to your home WiFi. You will be able to manage the level of filtering on gaming consoles, streaming media devices, and smart home devices from your Connect app.

The Box is like a barrier that you add to your existing internet service. It allows you to protect the many types of home devices with internet access along with your Child's portable devices when at home. Discover how to [Secure Your WiFi with the Family Zone Box](#).
