

Cyber Safety Hub

Last Modified on 2021-12-13

Available through participating Schools or through a Premium subscription

Your Cyber Safety Hub

A Cyber Safety Hub is a website for Parents. The Hub explains risks and actions you can take to keep your Child safe online.

Your cyber experts are psychologists, educators, and former law enforcement. They add and update your Hub with information you need about online trends.

Why go it alone? Your cyber experts provide simple explanations of online behavior, internet risks, and apps.

Accessing Your Hub

A School's Cyber Safety Hub is available to parents at the School. A Family Zone account is not needed to use the Hub. Your Child's School will send you a link to your Cyber Safety Hub website with your sign in.

We recommend you use a free Insights subscription with the Hub. You will be able to match your Child's online activity information in the Hub.

Family Zone offers a Hub to Premium subscribers. You do not need a School Hub. Get access to our Family Zone Hub through links in your Child's "Installed Apps" section.

Online Parenting Guides

Digital parenting is a big responsibility. So, how do you discuss cyber safety with your kids?

Look to your (1) Cyber Expert's guides to (2) to help your Child with healthy web usage. Find (3) further information about potential online dangers.

Hot Cyber Safety Topics

Knowledge is power. Know about popular, new apps and websites kids are using.

Our Cyber Experts keep an eye on (1) trends among children and teens. Get (2) answers to the questions parents are asking about online activities. Use (3) detailed advice to decide how to handle your Child's access to the game, app or website.

Cyber Safety Technology Advice

Our cyber experts have your back. Get age-appropriate controls for sites, apps, games and social media.

Learn the (1) cyber safety tech built into (2) computers, phones, tablets, and gaming consoles. (3) Get simple

explanations of the devices your child is using. (4) Follow the steps to use the manufacturer's tools to protect your child from online risks.

You do not need Family Zone products to change manufacturers' settings. However, our products make your internet parenting easier. We simplify keeping an eye on many different devices. Your Connect App helps you keep track of every device, everywhere.

App & Game Reviews

Manage individual games or apps, or block entire categories. View explanation of what apps and games your Child is using.

Find the (1) Apps & Game Reviews in your Cyber Safety Hub. Look for the app or game in a (2) list of apps. Read a (3) summary of the app and the online behavior. Quickly (4) assess the risks. Choose (5) the actions to make the game or app safer.

Not Finding the Information You Need?

End the guesswork. Ask a cyber expert. You are not alone.

You can request an article from your (1) Cyber Safety Hub menu by opening (2) Parent Advice or opening (3) Hot Topics. Fill out the (4) request form. Your School and our Family Zone cyber experts will get information into the Hub.

Did you notice a Staff Portal?

Teachers and counselors use the Hub for cyber safety lesson plans and tools.

Family Zone Premium Members

Your Child's School doesn't have a free Cyber Safety Hub? Stay on top of cyber safety.

We've added links in our Connect App to the Cyber Safety Hub for Premium Members. Get access to expert advice, become a Premium subscriber.

- [Upgrade to Premium in Google Play](#)
- [Upgrade to Premium in the App Store](#)

Mobile App Ratings

Keep your children safe and responsible online. As a Premium subscriber, you can view the apps your Child is using.

- [View Installed Apps](#)

See (2) a summary of the app ratings and basic tips for parents inside the Connect App.

The (3) links in the Connect App, send you to the Family Zone Cyber Safety Hub. (4) Get tips on known risks. Find out what parents need to know. Share what your Child needs to know and how to make your Child's app safer.

The Cyber Safety Hub is always getting updates. Use the Hub to protect your Child from accessing risky online activities. Find how to turn on privacy and safety settings on your Child's devices.

Return to the Connect App, if you want to filter the Web category or Website related to the app you want to block or allow.

- [Customize Filtering Rules](#)

Website Reviews

Create a home where children thrive. Outside of the Cyber Safety Hub, Family Zone provides a Website check to Premium Members. Review the website ratings and age groups used in the Connect App.

- [Check a Website Rating](#)

Find our Family Zone website filtering recommendations for your (1) Child. Compare a website recommendation with (2) older or younger children in your family. (3) Some websites are less risky for older children.

Use your Cyber Safety Hub to learn more about the web content.

Use your Premium features to allow or block online content based on the knowledge from your Cyber Safety Hub.

Customize the default rules in your Connect App to match your Family values. We recommend using the Web Categories to change access to apps and websites.

- [Customize Filtering Rules](#)
- [Restrict YouTube Access](#)
- [Google and Bing SafeSearch](#)

If the predefined categories do not block the website or the app, you can block the website.

- [Permanently Block or Allow a Website](#)

Be careful when blocking a specific website. For example, teachers publish classes on websites, like YouTube.

Internet Filters & Rules Options

As a Parent, you may want to customize our recommended Internet filters and rules for:

- Web categories (Dating, Education, Government, Hate Speech ...)
- Search engines, SafeSearch, and streaming media (YouTube, Google, Bing ...)

- Websites (specific web addresses)
- Device features (Camera, In-App Purchases, App Installs ...)
- Social networks and games (Minecraft Online, Skype, Tinder, Twitter ...)
- Advanced (Malware, Piracy, New Websites ...)

Please get in touch with us when you need help setting the boundaries for your child's access online. We are here to help you use the Connect App with the information you find in your Cyber Safety Hub.
